Road Classifications
The following road and track classifications are based on a general assumption that map users are familiar with the often extreme conditions of outback roads and tracks. Any unsealed road or track can be hazardous due to washouts, sand, mud or bull-dust patches and extreme corrugations. Use classifications as a general guide and always seek local advice.

Using a GPS with this map
For best results and ease of use, set the datum to **WGS84** *(World Geodetic System 1984) and set the co-ordinate style to* **degrees, minutes and seconds** *[DD MM SS] eg. Broome 17° 57' 19" 122° 14'23" E. Positional accuracy is limited by the scale of this map.*

GENERAL INFORMATION

Warning to Travellers
Travelling in Australia's arid regions can be extremely hazardous, especially during the summer months (Nov-Feb). Always seek local advice as to road conditions and notify the Police of your intended destination and an estimated time of arrival. Always carry plenty of fuel and water. In the event of a breakdown REMAIN NEAR YOUR VEHICLE. During the summer season (November to March), many of the unsealed roads in the Kimberley are impassable. Never drive on 'closed' roads. Road conditions change rapidly, so visitors should always check with local information centres and shire councils. Main Roads WA has a 24hr road report information line Ph 138 138

Estuarine crocodiles
Remember that saltwater crocodiles are not only found in salty water - so assume that every waterway in the Kimberley may have resident estuarine crocodiles. Be careful around any water source, including lagoons, swamps, creeks and rivers.

Aboriginal Lands Trust Land (ALT)
Many Aboriginal communities in WA are located on ALT land, which comprises different tenures including reserves, leases, freehold and some previous Native Title Reserves. A permit is required from DIAA for entry onto or through all Part III Aboriginal Lands Trust Reserves. For more information visit: www.daa.wa.gov.au/land/entry-permits. The transit permit is free and the online system auto-approves many applications. Please be aware that the DAA permit only covers entry to the reserve and most Aboriginal communities require a separate permit or notification that you wish to visit before you can enter a community. Some communities charge a fee to visit, camp and/or undertake activities.

Native Title Determinations
Native Title is a form of land title that recognises the ownership of the land and waters by Aboriginal people and Torres Strait Islanders, determined by the Federal Court of Australia. In the Kimberley, native title is exclusive possession (permission is required for access) or non-exclusive possession (permission may be required). Native Title does not affect public access to public roads, towns and most tourist facilities, visit www.klc.org.au for more information about native title.

Indigenous Protected Area (IPA)
An IPA is an area of land or sea where traditional owners have entered into an agreement with the Australian Government to promote biodiversity and cultural resource conservation. There are currently eight IPAs in the Kimberley with a ninth planned. For information on the Kimberley Ranger and IPA network visit www.klc.org.au/land-ranger-ipa-map.

Quarantine
All vehicles entering WA must be inspected to ensure they are free from soil, seeds and plant material. So make sure your vehicle is clean before you reach the checkpoint. Restrictions apply on bringing in all fruit and vegetables being brought into WA. Beetroot, carrot, ginger, parsnip, radish, seeds, sweet potato, taro, turnip and yam are the only fresh fruit and vegetables that don't require certification, but they still need to be inspected. Special conditions apply for potato and onion. Most commercially cooked, processed or frozen foods are okay, except for honey and unroasted walnuts. There are border checkpoints at Kununurra, Eucla and Kalgoorlie. For more information contact the Western Australian Quarantine and Inspection Service, ph (08) 9368 3333; www.agric.wa.gov.au.

Bush etiquette
No matter how vast the bush may seem, the land belongs to someone so ask the landowner's permission before crossing a property. Leave gates as you find them - open or closed. Respect the locals because even though country people are renowned for their hospitality you're on vacation and they're probably hard at work.
